# RESEARCH COMPLIANCE WORKSHOP

**October 10, 2007 2:00 – 4:00 P.M.  
University Museum Auditorium (North end of Faner Hall)**

This workshop covers the researcher's obligations regarding the use of human subjects, animals, hazardous materials, human stem cells, and other research compliances such as conflict of interest and misconduct.

Guest speakers will represent the various campus institutional review committees charged with the responsibility of overseeing research compliance. They will discuss federal and state laws, university policies and procedures, the expectations of the research community (faculty, staff and students) and answer questions from the audience.

This workshop is sponsored by the  
SIUC Office of Research Development and Administration,  
Woody Hall C206 · 618/453-4540. Registration not required.
